Flexotherm™ manufactures a custom-designed, high-quality Heated Drum/Barrel blanket for a multitude of industries and applications.

The Flexotherm™ Heated Drum/Barrel blanket is suitable for a wide variety of plastic, fiber, and metal containers. The blanket offers an even and continuous heat source throughout.

**FEATURES**

- Outfitted with a GFCI for extra security for both the product and user
- High Efficiency Carbon Heating Grid evenly distributes heat over the entire blanket area
- Heating element, unlike others, decrease current as temperature increases
- Constructed of Heavy Duty Vinyl that is NFPA Certified Flame Retardant
- Blankets are outfitted with adjustable retaining straps and quick release plated buckles
- Vinyl Panel Perimeters are sealed with a fully welded seam
